

Handlebar Post Change

Spinner NXT & eSpinner

There has been a change to the handlebar post of the Spinner NXT and eSpinner. The handlebar post has been changed to use different screws to fasten the handlebar to the post.

NXT's with Serial Number SBEX0908-W04862 and up and eSpinner's with Serial Number SBES0908-W02551 and up come with this new style handlebar post/hardware.

Original Design with countersink screws

New Design with button head screws

When replacing the original handlebar post to the new design, use part number 740-6861-KT. This includes the post and the screws.

Note: Do not use the original design countersink screws on the new "flat" handlebar post with the button head screws or the vice-versa.
